

## Nour Abuhadra, M.D.

**Hometown:** Everywhere I've lived - London/Doha/Tripoli/New York/Cleveland and now Houston

**Undergraduate:** Weill Cornell College in Qatar

**Medical School:** Weill Cornell Medical College in Qatar

**Residency:** Cleveland Clinic Foundation

### What are your career goals?

*To become a Breast oncologist and clinical investigator.*

### Why did you choose MD Anderson?

*This program fulfilled everything I was looking for; a program where I could train in an environment surrounded by leaders in the field who are dedicated to teaching fellows – located in a vibrant city with co-workers who don't make it feel like work at all!*

### How has MD Anderson helped you in achieving your goals?

*I'm just getting started! So far MD Anderson has added clarity to how I visualize my goals.*

### What do you like best about MD Anderson's fellowship program?

*That's easy – the people I've met/worked with here. 😊*

### What do you like about living in Houston?

*I love food. Houston has great food. Therefore, I love Houston.*

**What has surprised you most about living in Houston?**

*I'm a work-out class fanatic. Houston has endless options, from SoulCycle, to OrangeTheory to rock-climbing or just going for a run in the beautiful parks here.*

**What do you like to do outside of medicine?**

*Spinning, baking, playing piano. And eating... all the food.*
