

## Meredith Sellers Pelster, M.D.

**Hometown:** Cleveland, Tennessee

**Undergraduate:** Vanderbilt University

**Medical School:** Vanderbilt University

**Residency:** Northwestern Memorial Hospital

### What are your career goals?

*My goal is to become a clinical investigator in medical oncology. I hope to spend my time seeing patients and designing and carrying out clinical trials.*

### Why did you choose MD Anderson?

*I chose MD Anderson due to the breadth and depth of the clinical training and the unparalleled research opportunities.*

### How has MD Anderson helped you in achieving your goals?

*MD Anderson provides excellent clinical training in multiple settings, including the cancer center and the Harris Health System. With every rotation, I learn more and more how to provide excellent care to oncology patients. Additionally, fellows have access to many research mentors and projects. The fellowship makes an effort to introduce fellows to the many research opportunities and supports fellows in their research endeavors. Even in the first few months of my first year, I have had the opportunity to get involved in projects.*

### What do you like best about MD Anderson's fellowship program?

*The faculty are amazing – great teachers and mentors.*

### What do you like about living in Houston?

*The food scene is wonderful!*

**What has surprised you most about living in Houston?**

*This is not really surprising, but it is very warm in the summer!*

**What do you like to do outside of medicine?**

*I love trying out new recipes and getting in a good work-out at my neighborhood Pure Barre studio.*
