

Hometown: Orlando, FL
Undergraduate: University of Florida
Medical School: Meharry Medical College
Residency: UT Southwestern

What are your career goals?

I hope to pursue a career as a clinical investigator in gastrointestinal medical oncology at a large academic center with a diverse patient population.

Why did you choose MD Anderson?

MD Anderson provides exposure to state-of-the-art cancer therapies, a diverse patient population, and numerous clinical research opportunities. At MD Anderson, fellows are encouraged to pursue their preferred career track all while enjoying full faculty support.

How has MD Anderson helped you in achieving your goals?

The mentorship has provided opportunities to cultivate the skills required to pursue a career in academics as a clinical investigator

What do you like best about MD Anderson's fellowship program?

The mentorship, career track options, and exposure to both standard of care and investigational treatments

What do you like about living in Houston?

The cultural diversity and delicious food!

What has surprised you most about living in Houston?

The traffic and humidity!

What do you like to do outside of medicine?

Long distance running, basketball, and cooking Jamaican food.
