

Hometown: London, Ontario, Canada

Undergraduate: Harvard University

Medical School: Yale School of Medicine

Residency: Beth Israel Deaconess Medical Center, Harvard Medical School

What are your career goals?

To serve my patients as their oncologist, to develop a career as a clinical and translational investigator in academic oncology, and to work toward the discovery and development of new therapies to reduce and ultimately eliminate the burden of cancer.

Why did you choose MD Anderson?

I came to MD Anderson for its unrivaled clinical and research opportunities, including the cancer patients it attracts from around the world, its pioneers and leaders in oncology, and its excellent mentorship. Personally, I was excited to move back to Texas to be closer to my family.

How has MD Anderson helped you in achieving your goals?

I was able to connect right away with outstanding clinical and research mentors who have been incredibly dedicated to my professional growth and development. MD Anderson has offered me so many exciting opportunities for clinical care and research progress.

What do you like best about MD Anderson's fellowship program?

The people! Far and away, from my co-fellows to the fellowship program staff and leadership, to the faculty, MD Anderson has been an incredibly warm and welcoming place.

What do you like about living in Houston?

The warm weather, the friendly people, and the excellent food!

What has surprised you most about living in Houston?

The diverse and cosmopolitan character of the city—it makes it an exciting place to live.

What do you like to do outside of medicine?

I enjoy running, lifting weights, classical music (I play the bassoon!), and the arts.
