

Hometown: Ellicott City, MD
Undergraduate: Princeton
Medical School: Case Western
Residency: University of Pennsylvania

What are your career goals?

My goal is to become a clinical investigator of aggressive lymphomas with a specific interest in response prediction and novel therapies in DLBCL.

Why did you choose MD Anderson?

I was interested in fellowship at MDACC because of the research opportunities and resources here.

How has MD Anderson helped you in achieving your goals?

I have gotten a chance to work in clinical and research settings with world famous faculty in both the lymphoma & myeloma as well as leukemia departments.

What do you like best about MD Anderson's fellowship program?

I appreciate that the program both provides resources and guidance on shaping our early academic careers but also gives us the room, freedom, and time to pursue our goals in balance with educational clinical rotations.

What do you like about living in Houston?

Definitely the food.

What has surprised you most about living in Houston?

It's bigger than I expected.

What do you like to do outside of medicine?

When I wasn't holed up for the Covid-19 pandemic I liked to eat out and go bouldering, I also like cooking, videogames and board games.
