

2021 SUPER REGIONAL PROGRAM (VIRTUAL)

Do you have a new idea or technology? Want to refine your innovation and develop a business plan for your idea? Submit your application now for the Southwest I-Corps Node National Science Foundation Spring Super Regional Program.

This program is focused on science and technology startups across the following deep technology disciplines:

- » Life Science (including medical devices, digital health, and pandemic preparedness)
- » Materials Sciences
- » Energy
- » Learning Technologies
- » And more...

Startups will engage with and receive feedback from nationally-certified instructors from the National Science Foundation and National Institutes of Health.

PROGRAM OUTCOMES

- » Conduct early stage market research for your idea
- » Engage and connect with other innovation teams
- » Discover new insights for your technology
- » Qualify and prepare for application to the NSF national I-Corps programs (acceptance into the national program includes a \$50,000 award)
- » Increase the potential success rate for future SBIR/STTR funding submissions

PROGRAM DATES

May 24 • 11:00am - 1:00pm CT
Pre-Launch

June 7 • 9:00am - 3:45pm CT
Opening Session

June 14 • 10:00am - 2:00pm CT
Midpoint Session

June 28 • 9:00am - 4:00pm CT
Closing Session

Teams will also be responsible for scheduling Office Hours with instructors between sessions.

**This program will be delivered in a virtual format.*

LEARN MORE & APPLY

Interested teams should apply by May 26 at bit.ly/southwest-super-reg-2021. Teams will be interviewed and accepted on a rolling basis. However, there are a limited number of slots available, so early application is encouraged. For questions, reach out to icorpsprogram@mdanderson.org.
