TexGen Biospecimen Feasibility Assessment Form

Request Number: ___________________ (to be completed by TexGen staff)

Date Submitted: ___________________

Investigator Name: ______________________________________________________

Institution/Department: ___________________________________________________

Contact Information: ______________________________________________________

Collaborators (list all study collaborators and, for those not at MD Anderson, their home institution where the collaborator has his/her primary academic appointment):

_____________________________________________________________________

_____________________________________________________________________

Project Title: _____________________________________________________________

Please provide a brief description of the research to be conducted. Include a justification for the number and volume of biospecimens requested (2 – 5 paragraphs; attach a separate page). Attach protocol, if available.

Please note that an IRB-approved protocol is required before any samples may be released.

Patient Characteristics:

Describe population of interest and indicate number of study subjects needed by disease site, gender, age, race/ethnicity, etc. and identify any exclusion criteria:

_____________________________________________________________________

_____________________________________________________________________

Biospecimens Requested:

<table>
<thead>
<tr>
<th>Biospecimen Type</th>
<th>Quantity</th>
<th>Per Unit Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>DNA</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Plasma</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Buffy Coat</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Revised 7/15/2016
Additional Comments:

Additional Information:

1. Researchers using samples from the TexGen biorepository must reference MD Anderson protocols LAB01-526 and LAB10-0434 as a source of their samples in their IRB protocol.
2. All samples are de-identified.
3. An MTA is required if samples are leaving MD Anderson.
4. The following fee schedule applies to samples received from the TexGen biorepository:

<table>
<thead>
<tr>
<th>Service</th>
<th>MD Anderson Price</th>
</tr>
</thead>
<tbody>
<tr>
<td>DNA (extracted) from blood</td>
<td>$28</td>
</tr>
<tr>
<td>Plasma per aliquot</td>
<td>$50</td>
</tr>
<tr>
<td>Buffy Coat per aliquot</td>
<td>$50</td>
</tr>
</tbody>
</table>

Prices are subject to change.
