* Percent Daily Values are based on a 2,000 calorie diet. Your Daily Values may be higher or lower depending on your calorie needs.

**Ingredients:** High Fructose Corn Syrup, Corn Flour, Sugar, oat Flour, Brown Sugar, Coconut Oil, Salt, Niacinamide, Reduced Iron, Sucrose, Zinc Oxide, Yellow 5, Malt, Thiamin Mononitrate Pyridoxine, Hydrochloride Riboflavin, Folic Acid

---

**Eat less added sugar**

Added sugar is sugar that is **added** to packaged foods to enhance the flavor.

---

**You can find the amount of sugar on the nutrition label.**

- Women should have no more than 25 grams of added sugar per day. That’s about six teaspoons.
- Men should have no more than 37 grams of added sugar per day. That’s about nine teaspoons.

**Packaged foods and beverages can have a lot of added sugar.**

Sugar may be listed in the ingredients list under another name.

- Agave nectar
- Brown, cane, raw or invert sugar
- Evaporated cane juice
- Fructose, dextrose, glucose, maltose or sucrose
- Fruit juice concentrate
- High-fructose corn syrup
- Honey, syrup, molasses or malt

---

Eating too much **added sugar** can lead to weight gain, which increases your cancer risk.

---

If sugar is one of the top three ingredients, or if sugar appears under multiple names, choose something else.

Tips to eat less sugar

• **Eat whole foods.** Vegetables and fruits are healthy sources of sugar.

• **Check the label.** The label will tell you the amount of sugar in grams.

• **Cut back slowly.** Replace high-sugar foods with something healthier. Put one less packet of sugar in your coffee or tea.

• **Try diluting.** Mix unsweetened cereal with your favorite sugary cereal, and slowly increase the amount of unsweetened.

• **Cook from scratch.** Making food from scratch gives you more control over your ingredients.

• **Avoid sugary drinks.** Soda, sports and energy drinks, and sugary cocktails can be high in sugar.

• **Avoid sugar substitutes.** They can increase your craving for sweets.

• **Avoid fruit juice.** While the sugar in 100% fruit juice is natural, juice lacks the fiber found in a whole fruit. With no chewing and no fiber, it’s easy to consume and absorb a lot of sugar very quickly.

Watch out for added sugar in these packaged foods and beverages:

• Ketchup
• Spaghetti sauce
• Cereal
• Energy bars
• Granola bars
• Yogurt
• Sports drinks
• Coffee drinks
• Canned fruit
• Bread
• Salad dressings
• Packaged oatmeal
• Low-fat products
