**9- Justification for not reaching the intended goals and other remarks.**

The calculation of MD Anderson's HUB goals are baseline/initiated from the State of Texas goals which are derived from a very broad array of general purpose goods and services. As a medical care and research agency, a large percentage of the procurement requirements of MD Anderson are unique/specialized in its facilities, equipment, pharmaceutical drugs and medical supplies. Accordingly, we are challenged to identify HUBs with any or sufficient capability and capacity that meet the requirements for many of the goods and services procured by the Institution. Additionally, MD Anderson has experienced little or no participation in its purchasing processes (i.e., request for proposals, invitation to bid, etc.) from HUBs in procurement categories for which there is no HUB capability and capacity. However, MD Anderson continues to conduct a positive and proactive HUB outreach, solicitation and development program designed to create opportunities and promote HUB participation and utilization in all of its procurement processes. Section 2a adjusted to include MD Anderson's 2016 ProCard Spend.
