Making Cancer History[®]

7th Current Concepts in the Management of Thyroid and Parathyroid Neoplasms

February 17-19, 2017

The Program will include in-depth discussion of management of well differentiated thyroid cancer, locoregionally advanced and recurrent thyroid cancer, medullary thyroid cancer, and parathyroid neoplasia in the format of didactic and video presentations and panel discussions ideal for physicians, physician assistants, and nurse practitioners in community and academic practice. Topics will include evaluation of thyroid nodules with molecular diagnostics and ultrasound, surgical decision-making and techniques, and adjuvant therapies including radioactive iodine and molecular targeted therapies. Hands-on ultrasound course included. Guest speakers include **Dr. Ralph Tufano** from John Hopkins, **Dr. Mike Tuttle** from Memorial Sloan Kettering Cancer Center, and **Dr. Linwah Yip** from University of Pittsburgh.

For more information, please call the Department of CME/Conference Management at 713-792-2223 or visit our website at www.mdanderson.org/conferences.
