18th Oncology Update: Advances and Controversies

January 17-20, 2020

Steamboat Springs, CO

Friday, January 17, 2020

Session 1: Prevention and Screening

7:00 - 8:00 am

Results of Lung Cancer Screening: Have Improved Outcomes Been Realized?*

Melanoma Primary Prevention Initiatives: Education and Legislation*

HPV Vaccination: Penetration, Efficacy, and Expanding the Indications*

8:00 -8:15 Panel Q and A

Session 2: Toxicity Management and Ethics

8:15-9:30

Diagnosis and Management of Treatment-related Toxicities*
  - Immune-related and Targeted Therapy Toxicities
  - Lymphedema

Value-based Care in Oncology*

Integrating Cancer Care Quality into National Public Reporting and Pay-for-Performance programs*

Disparities in Cancer Care*

9:20-9:30 Panel Q and A
10:00 am – 12:00 Meet the Professor

Session 3: Innovations in Oncology

5:00-8:30 pm

Oncolytic (intralesional) Immunotherapy: Can We Make a “cold” tumor “hot”?

Checkpoint Blockade and XRT: What is the Evidence for Synergism and an “abscopal “ Effect?

The Role of the Microbiome in the Response to Immunotherapy: the “Scoop is in the Poop”

The Potential Role of CAR T-Cell Therapy in Solid Tumors

Promising Actionable Biomarkers from Phase I Studies

Minimally Invasive Surgery Symposium: Better Outcomes or Just Cool Video Games?

Controversy of Robotic and Laparoscopic Approach to Advanced Cervical Cancer

Colo-rectal Cancer

Robotic Prostatectomy

Robotic Skin Sparing Mastectomy

Hepatic Resection

Welcome Reception
Saturday, January 18, 2020

Session 4: Thoracic Oncology
7:00-9:30 am

Evolving front-line Therapy for Stage 3 NSCLC: Results of the Pacific Trial

Advances in the Treatment of Metastatic NSCLC

Survival Outcomes for Local Therapy of oligo-metastatic NSCLC: Surgery or Radiation Therapy?

Neo-adjuvant Therapy for NSCLC

Chemo-radiation for Advanced Esophageal Cancer: Front-line Results and the Role if Any for Salvage Surgery

Panel Q and A

Case Presentations

Session 5: Breast and Gynecological Cancer
4:30-7:30pm

Innovations in the Surgical Management of Breast Cancer

Results From the Taylor Rx Trial: Impact on Clinical Practice

Adjuvant Radiation Therapy for Breast Cancer: Current Controversies

Advances in the Treatment of Her-2 positive Breast Cancer

Immunotherapy for Breast Cancer: Is Progress Finally Being Made?

BRCA as a Biomarker for PARP Inhibition in Breast and Ovarian Cancer?

Value of Establishing a Tumor Registry for Rare Gynecological Malignancies
Panel Q and A

Case Presentations

**Sunday, January 19, 2020**

**Session 6: Urology**

7:00 - 9:30 am

Immunotherapy for Urological Malignancies

Advances in Systemic Therapy for Aggressive Variant Prostate Cancer

Does Control of the Primary Tumor Improve Outcomes in Metastatic GU Cancers?

Novel strategies in the treatment of Disseminated Renal Cell Cancer

Case Presentations

10:00-12 pm Meet the Professor

**Session 7: GI Oncology**

4:30-7:30 pm

Novel Neo-Adjuvant Approaches for Resectable Pancreas Cancer

Definitive Radiation Therapy for Hepatobiliary cancer: Can This Replace Surgical Resection?
Molecular Biomarker Based Therapy for Colo-rectal Cancer: A New Standard of Care?

Evolving Strategies in the treatment of Young-Age Colon Cancer

Can We Apply Lessons Learned in Rectal Cancer to Improve the Surgical Outcomes in Colon Cancer

The Evolving Role of HIPEC in Gastric Cancer

Advances in the Systemic Therapy of Gastric Cancer

Panel Q and A

Case Presentations

Monday, January 20, 2020

Session 8: Cutaneous Oncology

7:00-10:30 am

Completion Dissection in Melanoma Patients with a Positive Sentinel Node: Is the Controversy FinallyResolved?

Adjuvant and Neo-adjuvant Therapy: Which Patients What Therapy?

Front-line Therapy for Disseminated melanoma: Current standards and future directions

New Paradigm in the Treatment of Melanoma Brain Metastases: Are We Finally Making Progress?

Targeted and Immunotherapy for Advanced non-melanoma Skin Cancer

Meeting Adjourns

*presentations eligible for CME Ethics Credits
