

2021 Outstanding Research Publication Awards Score Sheet

Name of Applicant:

Reviewer:

To help make the scoring of the Publication Awards more comparable across the committee, please consider the following categories and award a score in each. Higher scores are better. Please score on a normal curve – most scores should be between 2 and 4, with a 1 or a 5 identifying submissions that stand out in that category. The sum of the scores will be used to rank the nominations.

| Category | Worst - 1 | 2 | 3 | 4 | 5 - Best |
|--|--|---|------------------------------|---|---|
| Importance and novelty of the work described in the manuscript | Limited significance in depth or scope | | Significant | 4 | Very broad significance for multiple fields |
| Likelihood that the reported findings will open new research areas | Incremental advance | | Advances field significantly | | 5 |
| Impact in cancer patients and understanding of cancer biology | Limited | | 3 | | Significant leap forward |
