

## Transfer Students

The School of Health Professions does not accept students who are, or have been, enrolled in a similar program and wish to transfer into one of the School of Health Professions programs. All students must take and complete all required courses shown in the current Health Professions Student Catalog. If the School of Health Professions student prefers to change programs, the student will need to withdraw from the current program and formally apply to the new School of Health Professions program of choice.

## Transferability of Credit

The Office of the Registrar will evaluate all official transcripts from regionally accredited institutions on an individual basis to determine if coursework is acceptable for transfer credit. Official transcripts of credit earned from all institutions of higher education previously attended must be submitted as part of the admissions requirement. The official transcript must include semester credit hour (SCH) and a grade symbol that reflects satisfactory performance. Not all credit earned by equivalency will be used in the calculation of the student admission grade point average. The School of Health Professions does not consider a grade of D in program-specific prerequisite courses to be acceptable performance. Program-specific prerequisite courses taken at other institutions in which a grade below C- was earned are not transferable or applicable toward degree requirements.

Students who satisfactorily completed an accredited health sciences program that holds current licensure/certification may be allowed up to 30 SCH of transfer credit. The number of SCH will be determined by the curriculum committee of the School of Health Professions.

Accepted students should meet with their program director or designated faculty to complete a degree plan at the beginning of the program. Their degree plan should be reviewed and updated periodically throughout the program. The student is responsible for tracking and completing all course requirements for graduation.
