Acute Myelogenous Leukemia - Adult (Greater than or equal to 18 years old)

This practice algorithm has been specifically developed for MD Anderson using a multidisciplinary approach and taking into consideration circumstances particular to MD Anderson, including the following: MD Anderson’s specific patient population; MD Anderson’s services and structure; and MD Anderson’s clinical information. Moreover, this algorithm is not intended to replace the independent medical or professional judgment of physicians or other health care providers. This algorithm should not be used to treat pregnant women.

Notes: Consider clinical trials as treatment options for eligible patients. Stem Cell Transplant guidelines are not included with this algorithm. Note: Leukemia Patients should be referred and treated at a Comprehensive Cancer Center.
