

Disclaimer: This algorithm has been developed for MD Anderson using a multidisciplinary approach considering circumstances particular to MD Anderson's specific patient population, services and structure, and clinical information. This is not intended to replace the independent medical or professional judgment of physicians or other health care providers in the context of individual clinical circumstances to determine a patient's care. This algorithm should not be used to treat pregnant women.

Note: Screening is only intended for asymptomatic individuals. Patient must be a candidate for and is willing to undergo curative treatment. Endometrial cancer screening may continue as long as a woman has a 10-year life expectancy and no comorbidities that would limit the diagnostic evaluation or treatment of any identified problem.

¹ Signs and symptoms include:
 • Vaginal discharge • Abnormal uterine bleeding, such as intermenstrual bleeding or postmenopausal bleeding

² Patients should have any gynecological symptoms promptly evaluated

³ While it is recognized that women who are overweight/obese, taking tamoxifen, or with a prior history of pelvic radiation are at increased risk of endometrial cancer, screening is not recommended for these populations

DEVELOPMENT CREDITS

This screening algorithm is based on majority expert opinion of the Endometrial Cancer Screening work group at the University of Texas MD Anderson Cancer Center. It was developed using a multidisciplinary approach that included input from the following:

Therese Bevers, MD (Cancer Prevention)[‡]
Powel Brown, MD (Cancer Prevention)
Elise Cook, MD (Cancer Prevention)
Robin Coyne, RN, FNP (Cancer Prevention)
Joyce Dains, DrPH, JD, RN, FNP-BC, FNAP, FAANP (Nursing)
Molly Daniels, MS, CGC (Clinical Cancer Genetics)
Ernest Hawk, MD (Cancer Prev & Pop Science)
Marita Lazzaro, RN, APNP, WHNP (Cancer Prevention)
Karen Lu, MD (Gyn Onc & Reproductive Med)

Tiffany McGowan, RN, MS, FNP-BC (Cancer Prevention)
Ana Nelson, RN, MSN, DNP, FNP (Cancer Prevention)[‡]
Denise Nebgen, MD (Gyn Onc & Reproductive Med)
Lonzetta Newman, MD (Cancer Prevention)
Tilu Ninan, RN, FNP (Cancer Prevention)
Amy Pai, PharmD[◆]
Lois Ramondetta, MD (Gyn Onc & Reproductive Med)
Shannon Westin, MD (Gyn Onc & Reproductive Med)[‡]
Anita M. Williams, BS[◆]
