

WHAT TO EXPECT DURING YOUR **CT SCAN** VISIT

1. Check-in

5-10 minutes

2. Drink oral contrast (if needed)

45 minutes

3. Meet with a team member

20-60 minutes

- Answer questions about how you feel
- Review your procedure
- Start an IV (if needed)
- Review labs
- Review allergies to contrast
- Learn what to do if you have a reaction

4. Have your CT scan done (this may include IV contrast, if needed)

30 minutes

- * Alert a team member if you have any concerns or needs during the scan by waving your hands or speaking in the microphone in the scanner.

**TOTAL CT SCAN
PROCESS TIME:**

**1-2
hours**
