MD Anderson offers group classes supporting all areas of health, including the mind, body and spirit. Classes are free and open to patients, family members and caregivers.

### EDUCATIONAL CLASSES

**Bowel Management**
Learn how the bowel works and what you can do to feel more comfortable. Topics include constipation, diarrhea and managing bowel function.

**Cancer-related Fatigue**
Tired of being tired? Get support to help you fight fatigue.

**Central Venous Catheter (CVC) Care**
This class focuses on home care of the central venous catheter. Learn how to clean and care for the CVC properly.

**Cooking for Optimal Health**
Learn from a dietitian how to prepare nutritious meals. You will have the chance to enjoy samples. Recipes will have a different theme each month.

**Implanted Venous Port**
Learn about the implanted port and how to care for it. Individual appointments are required. See page 4.

**New Patient/Family Orientation**
Learn about MD Anderson’s programs, resources and services, including information about clinical trials.

**Lunch and Learn**
Formerly known as PIKNIC, learn about issues relevant to cancer from MD Anderson experts in this informal educational forum held the second and third Tuesdays of the month.

**Care 4 the Caregiver**
All caregivers are welcome to this support group, which offers coping skills and self-care tips.

### MINDFULNESS SESSIONS

**Laughter for Health Yoga**
This class blends deep breathing, stretching and simulated laughter exercises to help reduce stress, depression and more. Please bring a bottle of water to class.

**Meditation for Daily Life**
Practice different types of meditation and learn how it can help reduce stress.

**Meditation for Health**
Access a deeper awareness through connecting your mind, body and heart through breath, sound and movement practices.

**Mindful Meditation**
Practice mindful meditation and learn how it can help improve mood and decrease anxiety.

**Qigong**
Experience this ancient Chinese system of self-care using meditation, breath and movement.

### PHYSICAL ACTIVITY CLASSES

**Get Moving with Yoga, Dance and Martial Arts**
Recharge and energize with uplifting music and a blend of yoga, dance and martial arts.

**Shape-Up Circuit**
Led by a physical therapist, this class follows a circuit format, with different strength and cardiovascular exercises at each station. Suitable for any fitness level. Please bring water.

**Tai Chi**
Find balance and strength through continuous flowing movements that link mind to body.

**Yoga for Health**
A beginning/intermediate level yoga class focusing on stretching, breathing and relaxation.

### RELAXATION

**Brief Relaxation Massages**
Experience a relaxing brief upper body massage. These chair massages are generously funded by Angie’s Spa.

MD ANDERSON’S LUNCH AND LEARN

Formerly known as PIKNIC, Lunch & Learn is your chance to get information about issues relevant to cancer from MD Anderson experts while connecting with others. This informal educational forum is held the second and third Tuesdays of the month.

WEEKLY PATIENT NEWSLETTER

Want to know what’s happening at MD Anderson while you are here? Pick up a copy of our newsletter This Week at MD Anderson near elevators and in most public spaces.

You will find the latest updates, insider tips and details about the resources and amenities.

ABOUT THIS CLASS CALENDAR

This is a bi-monthly schedule of classes offered through teams in Patient Education, Integrative Medicine Center and Lunch and Learn, an informational education program of Volunteer Services and Merchandising’s myCancerConnection.

Send feedback and events to PatientCommunications@mdanderson.org

Find class information online at www.mdanderson.org

MORE RESOURCES

Please visit The Learning Center for help finding information about your diagnosis and treatment. These information experts provide credible information and compassionate support to complement your clinical care.

You can call askMDAnderson (1-877-632-6789) to speak with a health information specialist about making an appointment at any location, understanding treatment options, learning about clinical trials, patient support services and using your online secure health record.
