

Dear Ma'am,

Thank you for choosing MD Anderson Cancer Center's Mobile Mammography Program as your provider for your annual screening mammogram. This program allows our institution to provide life-saving early detection services to women all over the greater Houston area, and we are honored to have you as our guest on board.

Here are a few quick eligibility guidelines to consider for screening mammography:

- You must be 35 or older
- It has been a year since last mammogram
- Are not pregnant or breastfeeding
- Do not have implants and no breast issues such as a lump or discharge from nipple area
- Are ambulatory and able to maneuver the unit stairs
- Have seen a gynecologist, primary care or internist within the last year and willing to accept screening results
- Patients with unilateral mastectomy or benign lumpectomy and are 5-years cancer free
- Women aged 30-34 with a mother or sister who was diagnosed with breast cancer before age 50. The "10-year rule" (that is, with a relative diagnosed at age 42, eligibility begins at age 32) will be applied.

Please follow these instructions to prepare for your scheduled screening:

- Wear a two-piece outfit with a button-down blouse if possible
- Do not apply lotion or powder to the breast or underarm area; do not wear perfume
- Apply deodorant sparingly if necessary

Registering for an appointment takes approximately 10 minutes or less. Please have your physician's contact information and your insurance card available at the time of your call.

Patients have two options for registration and scheduling:

- 1) Call the scheduling line at 713-745-4000.
- 2) Fax the Patient Questionnaire provided to 713-745-4055. Please allow up to 24 hours for a representative to contact you when faxing the questionnaire.

Thank you again for choosing MD Anderson Cancer Center's Mobile Mammography Program.
