

Sample Submission Instructions for ATGC Sanger Sequencing Service:

For all [internal MDA institution researchers](#) – sample submission is only available online via MDA Intranet. See instructions below:

1. Copy and paste <http://researchstation> into your web browser's URL bar (URL Bar is the search bar located on top of your web browser window (see diagram below)).

Type <http://researchstation> in the URL bar

2. Researchstation will appear (please bookmark this page on your web browser for ease of use going forward).
3. Login with your MDA credentials
4. Complete one-time registration form (if unable to register contact Ram Cheruvu at rcheruvu@mdanderson.org)
5. Follow steps to complete this online sample request submission form (contact dnacorelab@mdanderson.org if needed)
6. Send samples to ATGC facility.

For all [external MDA Institution researchers](#) interested in submitting samples, please send an email to dnacorelab@mdanderson.org and the Sanger Sequencing team will email you specific instructions and a sample submission spreadsheet.
