Financial Support for CPRTP Fellowships

The information provided herein is subject to change. Last Update: 4/26/2017

Should you decide to mentor a CPRTP trainee, please note the following mandatory financial obligations listed by funding mechanism. All mentors will be asked to sign a mentor requirement memo agreeing to these funding support guidelines. All research expenses must be pre-approved by the CPRTP.

R25E Summer Program (Undergraduate, Graduate, Health Professional Student)
- The CPRTP will provide $1,000 to all short-term summer students which can be applied to research expenses, travel, tuition, statistical support or other support, which is pre-approved by CPRTP.
- CPRTP will not reimburse students for money spent without prior written approval.
- Any amount over this $1,000 limit is to be covered by the student and/or mentor.

R25T Predoctoral Fellowship
- Stipend Supplementation: Mentor agrees to pay supplemental funds of $7,000 to be consistent with recommended levels. Mentors will receive an invoice for this amount.
- Any excess over the $2,000 tuition is paid by mentor/student.

R25T Postdoctoral Fellowship
- Administration Tax: Mentor agrees to pay supplemental funds of $2,800 per postdoc. Mentors will receive an invoice for this amount.
- Raise: The recommended $1,500 raise is paid by mentor/student.

Halliburton Postdoctoral Fellowship
- Stipend Contribution: Mentor agrees to pay $9,000 to supplement the primary funding source (donor funds). The chartfield must be provided to CPRTP 2 months prior to the appointment start date.
- Raise: The recommended $1,500 raise is paid by the mentor (at mentor’s discretion) after completion of the first appointment year. The CPRTP is prohibited from providing this increase.
- Trainee Expenses: Paid by mentor. Trainee expenses include research expenses, travel, tuition, CPRTP required course tuition, statistical support or other support.

Gordon Postdoctoral Fellowship
- Stipend Contribution: Mentor agrees to pay $9,000 to supplement the primary funding source (grant or donor funds via CPRTP). The chartfield must be provided to CPRTP 2 months prior to the appointment start date.
- Raise: The recommended $1,500 raise is paid by the mentor (at mentor’s discretion) after completion of the first appointment year.
- Trainee Expenses: Paid by mentor. Trainee expenses include research expenses, travel, tuition, CPRTP required course tuition, statistical support or other support.

CPRTP Postdoctoral Fellowship in Cancer Prevention (funded by the CPRIT grant)
- Funded for 2 years and paid at the current NIH NRSA stipend level.
- Supplement: It is at the mentor’s discretion to supplement this trainee’s NIH NRSA stipend with non-restricted, non-federal funds, in order to bring the trainee up to current standards based on department, postdoctoral experience or skill set.
- Raise: The recommended $1,500 raise is paid by the mentor (at mentor’s discretion) after completion of the first CPRTP appointment year. The CPRTP is prohibited by the grant mechanism from providing this increase.
- Trainee Expenses: Please consult the CPRTP.
