I am highly interested in MD Anderson’s CPRTP Summer Research Experience because... I am hoping to gain... My path to...
My educational goals are to achieve academic success and develop critical thinking skills. My research interests include cancer prevention and treatment. Prior research, goals for future research and investigation focus on developing novel therapeutic strategies. My educational goals are to pursue a PhD in cancer biology and apply for a fellowship in cancer research. My research interests include cancer prevention and treatment. Prior research, goals for future research and investigation focus on developing novel therapeutic strategies.
Mentor Choice #1: Dr. Sandy Jones  
**Department:** Clinical Cancer Prevention  
**Reason(s):** I have always been intrigued by neurology and intend to pursue a career in oncology neurology and believe Dr. Jones would provide the appropriate guidance.

Mentor Choice #2: Dr. Jamal Doe  
**Department:** Neuro-Oncology  
**Reason(s):** With my previous research experience in Alzheimer's, I gained a small background into the brain, and I think it will be interesting to transition to a different matter that deals with the brain.

Mentor Choice #3: Dr. Juanita Doe  
**Department:** Section of Experimental Neuro-Oncology  
**Reason(s):** I learned about gene therapy in my immunology class and I found this novel therapy very interesting. It would be cool to be able to investigate this therapy with hands-on experience in a field where it can make a big impact.

Mentor Choice #4: Dr. Lucy Doe  
**Department:** Gastroenterology - Research  
**Reason(s):** I loved my genetics class and hope to further pursue this field by taking epigenetics next semester. I believe that Dr. Doe's lab will be an interesting opportunity to combine my interest with a new field that I hope to explore.

Mentor Choice #5: Dr. Bob Duck  
**Department:** Clinical Cancer Prevention  
**Reason(s):** I believe Dr. Duck's lab will also give me a chance to use my interest in genetics and the genome and apply it to a new topic and a new field.

Mentor Choice #6: Dr. Sally Ride  
**Department:** Clinical Cancer Prevention  
**Reason(s):** Breast cancer has played a role in my family, and I think working with Dr. Ride would give me the opportunity to learn more about this cancer and its risk factors.
