This practice algorithm has been specifically developed for MD Anderson using a multidisciplinary approach and taking into consideration circumstances particular to MD Anderson, including the following: MD Anderson’s specific patient population; MD Anderson’s services and structure; and MD Anderson’s clinical information. Moreover, this algorithm is not intended to replace the independent medical or professional judgment of physicians or other health care providers. This algorithm should not be used to treat pregnant women.

Tumor Lysis in Adult Patients

NOTE:

This algorithm is currently undergoing updates by the Tumor Lysis Workgroup at the University of Texas MD Anderson Cancer Center.
